

## Révision biannuelle des indices de responsabilité sociale Euronext-Vigeo

Paris – 25 Novembre 2015 – Euronext, le principal opérateur de la zone Euro, et Vigeo ont procédé à la révision bi-annuelle de leurs indices Euronext-Vigeo.

La gamme des indices Euronext-Vigeo est composée des huit indices suivants :

- Euronext-Vigeo France 20,
- Euronext-Vigeo UK 20,
- Euronext-Vigeo Benelux 20,
- Euronext-Vigeo US 50,
- Euronext-Vigeo Eurozone 120,
- Euronext-Vigeo Europe 120,
- Euronext-Vigeo World 120,
- Euronext-Vigeo Emerging 70.

La composition des indices<sup>1</sup> est actualisée deux fois par an en juin et décembre. Leur composition est disponible dans les tableaux suivants et sur le site de Vigeo <http://www.vigeo.com/csr-rating-agency/fr/indiceeuronextvigeo>.

Les décisions actées aujourd'hui prendront effet à compter de la séance de Bourse du **mardi 1<sup>er</sup> Décembre 2015**.

L'**actualisation de la gamme des indices Euronext-Vigeo de Décembre 2015** est marquée par l'entrée de 40 entreprises, sélectionnées parmi un univers de plus de 2000 titres. A l'inverse, 47 entreprises ne font plus partie d'aucun indice Euronext-Vigeo.

### Méthode

Les entreprises sélectionnées sont celles auxquelles Vigeo a attribué les scores consolidés les plus élevés. Elles recueillent les meilleurs niveaux d'assurance de l'agence sur leur capacité à maîtriser leurs risques de responsabilité sociale et à déployer les engagements les plus probants en faveur du développement durable. Son référentiel d'évaluation permet à Vigeo de scorer chaque entreprise sur près de 330 indicateurs. Les indices ne comportent pas d'exclusion sectorielle. En sont cependant exclues, sur décision de la direction des Méthodes de Vigeo, les entreprises faisant l'objet de controverses sur des sujets critiques mettant en cause leur responsabilité sociale et qui ne fournissent pas d'informations publiques probantes sur les mesures correctives ou sur le dialogue qu'elles auraient engagé au sujet des controverses en question avec leurs parties prenantes. Le poids des entreprises dans l'indice, calculé par Euronext, est corrélé au score que Vigeo leur a attribué. Cette méthode de pondération est une alternative aux méthodes classiques basées sur la part de capitaux flottants. Elle permet de discriminer positivement, parmi les entreprises cotées, opérant le plus souvent à l'échelle internationale, les plus engagées en faveur du respect des normes publiques universelles, notamment en matière de droits de l'homme, de travail décent, de protection de l'environnement, de
