## Update of the Vigeo Eiris *Emerging Market 70 Ranking*

---

The *Emerging Market 70 Ranking* is comprised of the best performing companies from a reference universe of over 850 companies from 31 different emerging countries.

This ranking is based on the analysis of companies, using Equitics, the exclusive methodology developed by Vigeo Eiris.

The Emerging Market 70 Ranking is now comprised of the 71 best performing companies from the Equitics® Emerging Markets Universe. This number of companies will progressively increase, with the objective to include the 100 best performing companies from emerging markets in a “best-in-class” approach by mid-2018. The selected companies in the Emerging Market 70 ranking are listed in 17 countries, belong to 27 different sectors and employ more than 2 million people. Their global scores are the highest of their universe in the fields of human rights, decent employment practices, environmental protection, corporate governance, business ethics and contributions to social and economic development in areas where they operate.

This ranking allows us to highlight a selection of issuers from emerging markets based on their ESG performance and independently from the volatility of their affiliation to frontier zones defined by the major index providers.

The composition of this ranking is available in the tables below and on [Vigeo Eiris' website](#). It is updated every six months.

### **Methodology**

The Equitics assessment model rates each company on nearly 330 indicators. No sectors are excluded per se. However, following a decision by Vigeo Eiris, companies that are the subject of controversy on critical issues involving social responsibility and that do not supply comprehensive public information on corrective measures taken or discussions they may have entered into with stakeholders regarding such controversies, are excluded.

## **About Vigeo Eiris**

Vigeo Eiris is a global provider of environmental, social and governance (ESG) research to investors and public and private corporates. The agency evaluates the level of integration of sustainability factors in the strategy and the operations of organizations and undertakes a risk assessment to assist investors and companies in decision-making.

Vigeo Eiris offers two types of services through separate business units:

- **Vigeo Eiris rating**, offers databases, sector-based analyses, ratings, benchmarks and portfolio screening, to serve all ethical and responsible investment strategies.
- **Vigeo Eiris enterprise** assesses organizations of all sizes, listed and not listed companies in order to support them in the integration of ESG criteria into their business functions and strategic operations.

Vigeo Eiris methodologies and rating services adhere to the strictest quality standards and have been certified to the independent ARISTA® standard. Vigeo Eiris is CBI (Climate Bond Initiative) Verifier.

Vigeo Eiris is represented in Paris, London, Boston, Brussels, Casablanca, Milan, Montreal, Santiago, Stockholm and Tokyo. The team is composed of more than 200 experts of 28 nationalities with diversified and complementary skills. Vigeo Eiris has developed the “Vigeo Eiris Global Network” made of 7 research providers (Australia, Brazil, Germany, Israel, Japan, Spain and Mexico).
